INDEX TO VOLUME 48

Abelson, Andrew E., Altitude and fertility 83–92
Abortions, among Navajo and Hopi Indians 9–21
Acclimatization to hot humid conditions 439–53
Adaptation to heat in Zaire groups 439–53
Admixture in Haiti populations 245–69
Age changes in skin color 419–28
Alexander, F., A mixed longitudinal study of the growth in height and weight of asthmatic children 271–83
Altitude and fertility 83–92
Anderson, Donald L., Maximum growth changes in mandibular length, stature and weight 285–93
Anthropometry of Haiti populations 245–69
Armelagos, George J., Patterns of age-related cortical bone loss (osteoporosis) within the femoral diaphysis 295–314
Ashton, G. C., Assortative marriage for specific cognitive abilities in two ethnic groups 343–52
Assortative marriage for cognitive abilities 343–52
Asthma, influence on growth in childhood 271–83
Aue-Hauser, G., Total finger ridge-count and the polygenic hypothesis: a critique 713–25
Auld, Peter A. M., Skin reflectance of newborn infants from 25 to 44 weeks gestational age 541–57
Austin, Donald M., Heat tolerance of Bantu and Pygmoid groups of the Zaire River Basin 439–53
Azevêdo, Eliane S., Hypohaptoglobinemia in rural and urban populations of Bahia State, Brazil 653–7
Azim, Aida, Hereditary blood factors of North Sinai inhabitants 193–202

Basu, A., Morphology, serology, dermatoglyphics, and microevolution of some village populations in Haiti, West Indies 245–69
Battinelli, Thomas, Constitutional disharmony and selected components of motor ability 465–74
Biological distance between village populations 245–69
Birth control among Omaha Indians 59–71
Birth defects, paternal age in relation to, 727–39
Birth intervals of Eskimos 37–58, 113–38
Birth size and conception weight in monkeys 203–22
Blood factors of North Sinai inhabitants 193–202
Blood groups: and climate in Africa 757–67; in Haiti 245–269; North Sinai 193–202
Blood groups of host selected by yellow fever vector 337–41

Body fat in Western Sudanese 315–21
Bone density and physical activity 599–610
Bone loss, age pattern of, 295–314
Book notices 241–3, 651–2, 809–11
Books received 417
Book reviews
Behnke, A. R. and J. H. Wilmore, Evaluation and regulation of body build and composition 405–9
Bergsma, D., D. L. Rimoin, R. N. Schimke and N. W. Paul, Medical genetics today, birth defects 799–801
Brock, D. J. H. and O. Mayo, The biochemical genetics of man 400–2
Brown, T., Morphology of the Australian skull; studied by multivariate analysis 234–6
Carpenter, C. R., Behavioral regulators of behavior in primates 231
Claridge, G., S. Canter and W. I. Hume, Personality differences and biological variations: a study of twins 238–40
Crow, J. F. and C. Denniston, Genetic distance 797–9
de Garay, A. L., L. Levine and J. E. L. Carter, Genetic and anthropological studies of Olympic athletes 404–5
Evans, F. Gaynor, Mechanical properties of bone 637–8
Field, C. E. and F. M. Baber, Growing up in Hong Kong 409–10
Ford, E. H. R., Human chromosomes 402–4
Fraser, F. C. and V. A. McKusick, Congenital malformations 236–8
Gambaryan, P. P., How mammals run—anatomical adaptations 803–7
Holloway, R. L., Primate aggression, territoriality, and xenophobia: a comparative perspective 410–5
Martin, R. D., G. A. Doyle and A. C. Walker, Prosimian biology 415–6
McDevitt, H. O. and M. Landy, Genetic control of immune responsiveness: relationship to disease susceptibility 399–400
Montagu, A., The origin and evolution of man: readings in physical anthropology 807–8
Porter, I. H. and R. G. Skalko, Heredity and society 232–4
Roche, Alexander F. and Frank Falkner, Nutrition and malnutrition, identification and measurement 643–5
Roche, A. F., H. Wainer and D. Thissen, Predicting adult stature for individuals 635–7
Sargent II, F., Human ecology 793–5
Shapiro, Harry L., Peking man 645–7
Thomas, R. B., Human adaptation to a high Andean energy flow system 638–41
Watanabe, Hitoshi, The Ainu ecosystem: environment and group structures 641–3
Weiner, J. S. and J. Huizinga, The assessment of population affinities in man 795–7
Worthy, Morgan, Eye color, sex, and race: keys to human and animal behavior 648–9
Zuckerman, S., The concepts of human evolution 801–3
Blumberg, B. S., Hepatitis B surface antigen, fertility and sex ratio: implications for health planning 73–81
Boyce, A. J., Association between PTC taster status and goitre in a Papua New Guinea population 769–973
Brown, H. Donna, Fourier analysis of adolescent growth of the cranial vault: a longitudinal study 517–28
Brown, W. H., Morphology, serology, dermatoglyphics, and microevolution of some village populations in Haiti, West Indies 245–69
Buchert, Eileen, Growth patterns of children with sickle-cell disease 429–37

Caleb, Mae, Growth patterns of children with sickle-cell disease 429–37
Carlson, David S., Patterns of age-related cortical bone loss (osteoporosis) within the femoral diaphysis 295–314
Climate and anthropobiological variables in sub-Saharan Africa 757–67
Cognitive abilities, assortative mating for, 243–52
Constitution, disharmony of, and motor ability 465–74
Cranium, longitudinal Fourier analysis of growth of, 517–28

Davila, Gail H., The reliability of assessments of the maturity of individual hand-wrist bones 585–97
DeFries, J. C., Assortative marriage for specific cognitive abilities in two ethnic groups 343–52
Demographic transition theory 37–58
Dermatoglyphics, finger ridge counts 713–25
Dermatoglyphics, of Haiti populations 245–69
Dicker, Lois, Growth patterns of children with sickle-cell disease 429–37
Drew, J. S., Hepatitis B surface antigen, fertility and sex ratio: implications for health planning 73–81

Ellis, Walter S., Celibacy, late marriage and potential mates in a Swiss isolate 23–35
Epidemiologic surveys, biases in longitudinal, 529–39
Erythrocite enzymes in: Haiti 245–69; North Sinai 193–202; NW India 323–36
Exercise capacity of migrant Peruvian Indians 175–91

Facial similarity in relatives 611–21
Femur, bone loss in diaphysis of, 295–314
Fertility and altitude 83–92
Fertility and social organization of American Indians 361–77
Fertility, anthropological studies of, 1–7
Fertility in: Sri Lanka 139–46; a Swiss isolate 23–35; Yucatan 93–100
Fertility of: Eskimos 37–58, 113–38; Omaha Indians 59–71; Peruvians 83–92, 101–11; Seminole Indians 741–55
Fertility, relation of, to childhood mortality rate 101–11
Fetal loss and parental ages 223–30
Finger print ridge count, critique of polygenic hypothesis of, 713–25
Fitness, reproductive, and anthropometric dimensions 775–91
Forbes, Gilbert B., Adult decline in lean body mass 161–73
Friedl, John, Celibacy, late marriage and potential mates in a Swiss isolate 23–35
Frisancho, A. Roberto, Symbiotic relationship of high fertility, high childhood mortality and socio-economic status in an urban Peruvian population 101–11
Frisch, Rose E., Fatness of girls from menarche to age 18 years, with a nomogram 353–9
Froment, Alain, The correlations between anthropobiological and climatic variables in sub-Saharan Africa: revised estimates 757–67

Garfinkel, Joseph, Paternal age, maternal age and birth order and the risk of a fetal loss 223–30
Garn, Stanley M., Physical activity and bone density 599–610
Ghesquiere, Joseph, Heat tolerance of Bantu and Pygmoid groups of the Zaire River Basin 439–53

Grisi, Maria Eutalia S., Hypohaptoglobinemia in rural and urban populations of Bahia State, Brazil 653–7
Growth in infancy and growth in adolescence in Blacks 693–711
Growth of children with sickle-cell disease 429–37
Growth of height and weight in asthmatic children 271–83
Growth of mandible, relation to growth in stature and weight 285–93
Growth of the cranial vault, Fourier analysis of, 517–28
Gulati, P. D., Some erythrocyte enzyme and serum protein systems in two communities of northwest India 323–36

Hale, Penelope Anne, Protein deprivation in primates: determinants of size and skeletal maturity at birth in Rhesus monkeys 203–22
Hamza, Sawsan, Hereditary blood factors of North Sinai inhabitants 193–202
Haptoglobin deficiency in rural and urban Brazilians 653–7
Harrison, G. A., Association between PTC taster status and goitre in a Papua New Guinea population 769–73
Hauspie, R., A mixed longitudinal study of the growth in height and weight in asthmatic children 271–83
Heat tolerance of Bantu and Pygmoid groups of Zaire 439–53
Hemoglobin S in Haiti 245–69
Hemoglobin variants, history of, in West Africans 487–500
Heritability of stature 475–86
Hesser, J. E., Hepatitis B surface antigen, fertility and sex ratio: implications for health planning 73–81
Hiernaux, Jean, The correlations between anthropobiological and climatic variables in sub-Saharan Africa: revised estimates 757–67
Himes, John H., Relationships between body size and second metacarpal dimensions in Oaxaca (Mexico) school children 6 to 14 years of age 677–92
Hoerman, K., Hereditary blood factors of North Sinai inhabitants 193–202
Holman, John D., Parent-child correlations and heritability of stature in Philadelphia Black and White children 6 to 12 years of age 475–86
Hughey, David V., Fertility of rural and urban: Omaha Indians 59–71; Seminole Indians 741–55
Human Biology Council bylaws 623–31
Human Biology Council membership application 633
Humphery, Albert, Growth patterns of children with sickle-cell disease 429–37
Hysterectomies among Navajo and Hopi Indians 9–21

Ibrahim, W. N., Hereditary blood factors of North Sinai inhabitants 193–202
Indians, American, intellectual performance of, in Chile 455–64
Intellectual performance and Amerindian descent 455–64

Johnson, R. C., Assortative marriage for specific cognitive abilities in two ethnic groups 343–52
Johnston, Francis E., Book notices 241–3, 651–2, 809–11; The relationship between growth in infancy and growth in adolescence: report of a longitudinal study among urban Black adolescents 693–711

Kahlon, D. P. S., Age variation in skin color: a study in Sikh immigrants in Britain 419–28
Kamel, K., Hereditary blood factors of North Sinai inhabitants 193–202
Kaplan, Bernice A., Anthropological studies of human fertility 1–7
Katz, Solomon H., Adaptive childbearing in a North Slope Eskimo community 37–58; growth patterns of children with sickle-cell disease 429–37
Klayman, Jane E., Symbiotic relationship of high fertility, high childhood mortality and socio-economic status in an urban Peruvian population 101–11
Komatz, Yosuke, Palmar a-b ridge counts in patients with Klinefelter's syndrome (47,XXY) among Japanese 581–4
Krauss, Alfred N., Skin reflectance of newborn infants from 25 to 44 weeks gestational age 541–57
Kuczynski, R. R. 559–80
Kunitz, Stephen J., Fertility, mortality, and social organization 361–77; the use of surgery to avoid childbearing among Navajo and Hopi Indians 9–21

Lamphiear, Donald E., Muscular strength and body size 147–60
Lasker, Gabriel, Relationship between reproductive fitness and anthropometric dimensions in a Mexican population 775–91
Lean body mass, decrease with age in, 161–73
Lestrel, Pete E., Fourier analysis of adolescent growth of the cranial vault: a longitudinal study 517–28
Liberty, Margot, Fertility of rural and urban: Omaha Indians 59–71; Seminole Indians 741–55
Livingstone, Frank B., Hemoglobin history in West Africa 487–500
Llop, Elena, Amerindian descent and intellectual performance in Chilean university students 455–64
Lotka, Alfred J. 559–80
Lubin, Bertram, Growth patterns of children with sickle-cell disease 429–37

Mack, Robert W., The relationship between growth in infancy and growth in adolescence: report of a longitudinal study among urban Black adolescents 693–711
Malina, Robert M., Parent-child correlations and heritability of stature in Philadelphia Black and White children 6 to 12 years of age 475–86; relationships between body size and second metacarpal dimensions in Oaxaca (Mexico) school children 6 to 14 years of age 677–92
Marriage, age at, in: Omaha Indians 59–71; Swiss isolate 23–35
Marriage, consanguineous, and fertility in Sri Lanka 139–46
Masnick, George S., Adaptive childbearing in a North Slope Eskimo community 37–58
Matos, Jorge, Symbiotic relationship of high fertility, high childhood mortality and socio-economic status in an urban Peruvian population 101–11
Maturity assessment from hand-wrist bones, reliability of, 585–97
McAlpine, Phyllis J., Fertility and other demographic aspects of the Canadian Eskimo communities of Igloolik and Hall Beach 113–38
McCabe, John F., Physical activity and bone density 599–610
McClearn, G. E., Assortative marriage for specific cognitive abilities in two ethnic groups 343–52
McCormack, Michael K., Growth patterns of children with sickle-cell disease 429–37
McDaniels, John, Growth patterns of children with sickle-cell disease 429–37
Menarche, age of: in Canadian Eskimos 117–9; and fatness 353–9

Menopause, age of, in Canadian Eskimos 118–21
Metzner, Helen L., Physical activity and bone density 599–610
Mi, M. P., Assortative marriage for specific cognitive abilities in two ethnic groups 343–52
Moafy, Nadia, Hereditary blood factors of North Sinai inhabitants 193–202
Montoye, Henry J., Muscular strength and body size 147–60; physical activity and bone density 599–610
Mortality and social organization in American Indians 361–77
Mortality, childhood: and fertility 101–11; in Canadian Eskimos 123–5; in Sri Lanka 139–46
Mosquitos, selection of host blood group 337–41
Motor ability and constitutional disharmony 465–74
Mueller, William H., Parent-child correlations: and heritability of stature in Philadelphia Black and White children 6 to 12 years of age 475–86; for stature and weigh' among school aged children, a review of 24 studies 379–97
Muscular strength and body size 147–60
